## DAMRON MEDICAL LEGAL CONSULTING

is owned and operated by Christy Damron, RN, BSN, Certified Legal Nurse Consultant and Tim Damron, BSRT(R), Certified Radiology Administrator and Consultant.

With over 40 years of combined experience in Nursing, Radiology Administration and Clinical Practice, Tim and Christy Damron can help interpret complex medical issues for the legal profession.

DMLC can work independently or with your paralegals to provide the help and support you need to successfully litigate your medical related cases. Using DMLC provides you with the confidence that our experienced team will review your medical-legal issues to develop a concise, accurate opinion.

We serve the needs of your plaintiffs and defendants by assisting with medical discovery and consultation, evaluating and summarizing medical records, educating attorneys on complex medical topics, recommending credible expert witnesses and analyzing the strengths and weaknesses of the case. Our goal is to exceed our client's expectations by providing the most complete and professional medical legal consulting services available.

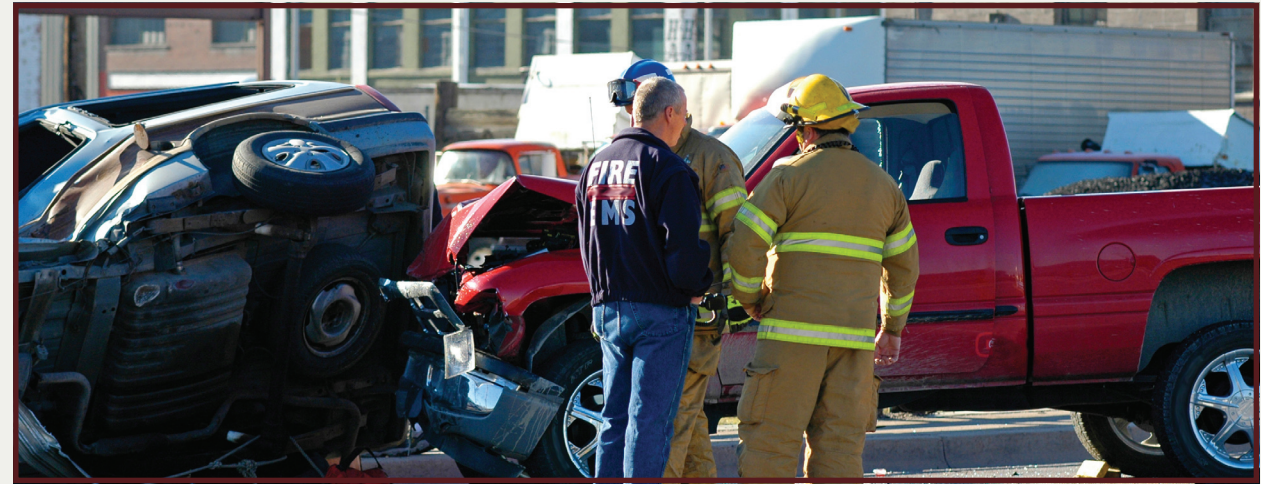

## WHY USE DAMRON MEDICAL LEGAL CONSULTING?

- ◆ **Cost Effectiveness:** Save time and money with our quick review of medical records. We provide facts that are specific and relevant to the case. Most cases reviewed for merit in four to six hours. Written report provided.
- ◆ **Experience:** Our clinical experience gives us the knowledge to decipher medical records for deviations from standards of care, to identify inaccuracies, mistakes, tampering or evidence of omission.
- ◆ **Resourcefulness:** More than forty-five years of Clinical and Administrative Experience has allowed us to develop an extensive database of experts.

## WHY HIRE A LEGAL NURSE CONSULTANT INSTEAD OF A M.D.?

- ◆ CLNC's are qualified to perform many of the same services as a physician for a significantly lesser fee.
- ◆ Nurses are the primary care givers and are qualified to assess and interpret many types of notes, forms and records. Physicians are not qualified to address nursing standards of care and are independent practitioners unfamiliar with hospital policies and procedures.

### ***Our clients...***

Include Plaintiff and Defense Attorneys, Insurance Companies and Health Care Facilities.

### ***Our specialized knowledge...***

Allows us to work with your legal assistants and paralegals to provide a greater scope of involvement regarding the medical aspects of the case.

### ***We offer...***

A risk free guarantee on all services. If you are not 100% satisfied, contact us within two weeks and we will refund your money.

### ***We appreciate your business...***

We value the opportunity to develop long-term business relationships; out of appreciation for your business, we will provide a free review for merit after every 5th case.

We will provide a free merit review for each new attorney referral.

A 10% discount is offered to established clients.
